the „Legal innovation”

Conference

21-22 April 2017

- The International Scientific „Legal Innovation” Conference was held at the Faculty of Law, Administration and Economics of the Wroclaw University.
- The event was aimed at **advocates, legal counsels, foreign lawyers, judges, researchers and other professionals**, who deal with e-justice services.
- The “Legal innovation” Conference was very well welcomed and as a result, almost **300 participants** from Poland and abroad took part in it.
- The idea behind the Conference was to discuss recent changes in the field of new technologies in daily legal practice.
