09:30–09:45 Registration

09:45–10:15 Welcome speeches

Rosa Isabel Peña representing Il·lustre Col·legi de l'Advocacia de Barcelona (ICAB)
Izabela Konpacka representing Fédération des Barreaux d'Europe (FBE)

10:15–11:45 **1ST PANEL** "Implementing Generative AI in Legal Decision-Making Processes"

Moderator: Izabela Konopacka

PANELISTS

Maria Dymitruk, PhD "Demands of judicial impartiality in the age of generative AI"
Dr. Maria Dymitruk – President of the FBE New Technologies Commission, academic researcher at the Faculty of Law, Administration and Economics of the University of Wrocław. Author of a doctoral thesis on the admissibility of the use of AI in civil proceedings. She is also an attorney-at-law specialising in the field of IT/AI. She has an extensive portfolio of scientific and professional publications in the field of LegalTech, as well as broad research experience.

Manuel Martinez Ribas "A critical perspective from what we already see in our law firm practice and enacted legislation in Spain"
Manuel Martinez Ribas – Member of the Barcelona Bar Association and member of the Information and Technologies Communication Section. He specialises in intellectual property (IP) and information and communication technologies (ICT). From 1996 to 2001 he served as a researcher at IESE (University of Navarra) and held a leadership position at The Information Highway Group, overseeing various European R&D projects in ICT. Former President of the ICT Section of ICAB and Vice President of the IP Section.

Christian Klostermann, PhD "Future Outlook and Innovation Potential of AI in Legal Decision-Making"
Dr. Christian Klostermann – a lawyer specialising in computer and internet law. He holds a degree as a specialist lawyer for information science law. He studied in Marbung, Frankfurt am Main and at the University of Keele, Great Britain and holds a diploma from the University of Tunis. In 2000, he founded his law firm in Saxony with a focus on computer and internet law. He is a member of the board of the Saxony Bar Association. He is a member of the FBE New Technologies Commission.

11:45–12:30 Coffee break

12:30–14:00 **2ND PANEL** "Enhancing Access to Justice Through Generative AI: Experiences from the CREA II Project"

Moderator: Prof. Marco Giacalone

PANELISTS

Prof. Dr. Jordi Nieva-Fenoll "Generative AI and ADR"
Prof. Dr. Jordi Nieva-Fenoll – Full Professor (Chair) of Procedural Law at the University of Barcelona. He is author of 11 monographs and over 100 papers concerning Law of Evidence; Res Iudicata; Cassation; Artificial Intelligence, Neuroscience and Procedure among other topics. He holds 5 Doctorates honoris causa in Universities from Latin America and has been panelist in over 200 international congresses in 20 countries.

Egidia Cirillo "The role of Generative Artificial Intelligence in legal conflict resolution"
Egidia Cirillo – a computer engineer specialized in Artificial Intelligence, holding a master's degree from the University of Naples Federico II. Currently, she is engaged in academic research at the same institution, focusing primarily on Computer Vision and Generative Artificial Intelligence. As a doctoral candidate in the field of Artificial Intelligence, she is actively contributing to the development and advancement of innovative technologies in the sector. Among the most relevant projects are works on image and video detection using deep learning models. She actively contributes to projects based on generative AI and the use of Large Language Models (LLM).

Daša Tičar, LL.M. "Collection of (sensitive) personal data when developing AI driven tools: a CREA-II perspective"
Daša Tičar, LL.M. – works as researcher at the Department of Legal and Economic Sciences, Faculty of Law, University of Ljubljana. Through her studies and work in Slovenian, Italian and Dutch universities and at the CJEU in Luxembourg, she is particularly interested in the topics of European commercial law.

14:00–15:00 Lunch Break

15:00–15:30 Discussion and networking
